## Pricing of Grades 13 & Above

As the prices in our price lists vary from grade A to 12, a formula has been established to define the price of grades 13 and above. Please refer to it, contact Artopex customer service for any validation or questions.

- 1-Identify the delta (difference) between grade 12 and the grade you are looking for to obtain a multiplier number.
- 2-Find the price gap between grade 11 and 12 in the current price list.
- 3-Then multiply the delta with the price gap.
- 4-Add the result to the price of grade 12.

### Example to find a grade 15 price

1-Identify the delta

Grade 15 minus Grade 12 = 3

2-Calculate the price gap between Grade 11 and 12

Price				
1/Gr.2	Gr.3	Gr.4	Gr.5	Gr
65	683	706	728	75
Gr.9	Gr.10	Gr.11	Gr.12	Leat
18	841	886	931	82

$$\$931 - \$886 = \$45$$

3-Multiply the delta by the price gap

$$3 \times \$45 = \$135$$

4-Add the amount to the grade 12 price

$$\$931 + \$135 = \$1066 \text{ (Grade 15 price)}$$

\*All surcharges for specification options must be added together after the calculation.

## Prix des grades 13 et plus

Comme les prix affichés dans nos listes de prix varient entre le grade A et 12, une formule a été établie afin de définir le prix des grades 13 et plus. Veuillez vous y référer, contactez le Service à la clientèle Artopex pour toute validation ou question.

- 1-Identifiez le delta (différence) entre le grade 12 et le grade recherché afin d'obtenir un nombre multiplicateur.
- 2-Trouvez l'écart de prix entre le grade 11 et 12 figurant dans la liste de prix à jour.
- 3-Multipliez ensuite le delta avec l'écart de prix.
- 4-Ajoutez le résultat au prix du grade 12.

### Exemple pour trouver un prix de grade 15

1-Identifiez le delta

Grade 15 moins Grade 12 = 3

2-Calculez l'écart de prix entre le grade 11 et 12

Price				
1/Gr.2	Gr.3	Gr.4	Gr.5	Gr
65	683	706	728	75
Gr.9	Gr.10	Gr.11	Gr.12	Leat
18	841	886	931	82

$$931\$ - 886\$ = 45\$$$

3-Multipliez le delta par l'écart de prix

$$3 \times 45\$ = 135\$$$

4-Ajoutez le montant au prix du grade 12

$$931\$ + 135\$ = 1066\$ \text{ (prix du grade 15)}$$

\*Toutes les surcharges pour les options de spécification doivent être additionnées suite au calcul.
