### PHOENIX CLEANING INFORMATION

WS: Water/Solvent Cleaner – Spot clean, with a mild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.

Day-to-Day Soil – Remove ordinary dirt and smudges with a mild soap and warm water solution. Dry with a soft, lint-free cloth or towel. For more difficult stains, use a stronger detergent; however, follow the detergent manufacturer's instructions closely.

More difficult stains – Use nonabrasive household cleaners such as Formula 409® All-Purpose Spray Cleaner or Fantastik® Spray Cleaner with water and a soft cloth. \*A mild solvent-type cleaner such as rubbing alcohol (isopropyl/alcohol) may also be used. Apply moderately with a soft cloth. Dry area with another cloth, rinse with water and dry.

GREENGUARD Certified products are tested for low chemical emissions to standard UL 2818. For more information, visit [UL.com/gg](http://UL.com/gg).

Chlorine, bromine, or phthalate ester plasticizer materials were not used in the manufacturing of Phoenix.

Many of the materials used in manufacturing of Phoenix contain very low VOC content. Phoenix is protected by a top-finish coating that contains organic solvents. The organic solvents (VOC's) portion of the top-finish are removed during the manufacturing process. The final product contains only trace levels of VOC's. The material may meet Chair/Cushion VOC requirements.
